

Course Overview

This course provides participants with resources to implement early intervention programs in their community, organization or school using our GAME PLAN™ method.

Evidence-based intervention programs have proven success. The GAME PLAN™ method provides leaders with the guidance needed to complete a customized program ready for execution in their community.

Why Attend?

Navigating through the many resources available to address mental health and substance abuse disorder can be overwhelming and confusing.

In this course, you find a partner able to guide you through the development of your program.

Expert facilitators will assist you in identifying potential solutions for the many challenges and barriers you will face in executing and development of your program.

**MENTAL HEALTH AND
SUBSTANCE ABUSE
DISORDER**

Educating a Community

Often individuals in high risk groups and environments do not know how to get started on their journey towards mental health.

Many do not realize they are at risk. Families, schools, organizations and communities often find themselves in high risk environments, where the risk for substance abuse is prevalent.

Create an educational plan for your specific circumstance.

Mental Health and Substance Abuse Disorder continues to grow at alarming rates.

Communities, workplaces and schools are beginning to recognize the importance of awareness and early intervention programs.

Begin making a difference in lives.
